

Pottery Workshop

Pottery seems to have a calming effect on most individuals. It provides a non-threatening environment to relax, and also encourages creative energy! The molding of clay and creation of pottery can provide a distraction from the overwhelming feelings we have while grieving. Your pottery piece can become a connection to your loved one by incorporating symbols and images that remind you of them.

We will be making wind chimes and tiles.

WIND CHIMES are a simple way to provide a measure of peace and relaxation. They are a beautiful addition to a memorial garden or backyard patio. The soothing tones of the wind chimes create an atmosphere conducive to calming the mind, reducing tension, and uplifting spirits.

TILES are a great way to remember your loved one by painting meaningful symbols, images, or words onto clay tiles. The tiles are then glazed and fired.

WHAT TO BRING

Prior to the workshop, begin thinking of symbols, images or words that you may want to use on your pottery in memory of your loved one.

Hospice of Hope would like to feature all pottery projects at the Art of Hope showing on June 12 from 5:00 to 7:00 p.m. at the Cox Gallery in downtown Maysville.
